

theBurger Rebellion

People have come to be confused about what the rebellion really is. The rebellion is not in the clothes you wear, it is not in the appearance you portray, it is not in the music you listen to. The rebellion is the process of forgetting everything you know and asking the questions to what everything is again, where you are now questioning everything for you to decide, rewiring your every circuit by erasing everything you know or thought you knew and were taught. The rebellion is tough. The rebellion is not always pretty. The rebellion is first in the mind and the rebel is in the act.

The 40/40/20 RATIO

Opinions vary greatly on what makes a good burger blend! Over many years of cooking and more importantly, eating burgers, we have discovered a combination that stands out above all.

40% RIVERINE DRY AGED BRISKET

From the breast and flank of the beast the brisket comes in two parts, the flat cut and the point cut. We use both for its ideal marbling, flavor and outstanding consistency. Raised in open pasture in this lush, temperate Riverine region of Australia.

40% PREMIUM GRASS FED BLACK ANGUS CHUCK

The chuck section comes from the shoulder and neck of the beast and has some of the most flavorsome beef on offer. Black Angus has a proven reputation for unrivalled quality and excellence.

We feel that to get the best from a burger for flavour and texture it needs to be char grilled end of story.

20% DRY AGED PORK BELLY BACON

Due to its high fat content, the pork belly bacon adds a salty flavor and allows the burger blend to remain juicy and tender throughout the entire cooking process.

THE BEER

Moorebeer Brewing Co is a local pair gaining traction because of their commitment to serve locals the best quality beer available with no compromises. You can't buy their beer in bottleshops or large commercial pubs, just a growing number of locally run venues like ours and only on tap. Their philosophy is to deliver beers full of flavour in the freshest possible state straight from the brewery tanks to local venues. They have a core range of beers that we rotate including; Copycat – Session Pale Ale, Gold Digger – Golden Ale & Larrikin – Aussie Lager and from time to time they also provide us with some of their concept beers to experiment with burger pairings. Moorebeer Brewing Co is located Merrigal Road in the industrial area where they have established a fixed brewhouse. We support them one Moorebeer at a time.

THE BUN

A lot must be considered when assessing the perfect burger bun, although harshly subjective there are a few tell tale signs one should look out for. When you bite through a burger in the perfect bun, the result should be like looking at a cartoon image of a surfboard that has been precisely bitten by a shark, a clean outline with no shifting of ingredients. We feel the perfect bun must be soft, light and fresh. Toasted on the inside to caramelize the sugars in the bun and seal the bread so it doesn't take on any moisture.
