

Deluxe – Premium Burger

We believe that **heart and soul** of a burger lies within **a perfect steak**. Our restaurant's concept does not include frozen steaks put into the grill. The meat we serve is Finnish **Black Angus** -beef cattle meat, that is delivered **fresh** from a Middle-Finnish farm straight to our restaurant. We grill all steaks in our **lava rock grill**. You will find the grilled steak within a fluffy brioche bun, that is baked especially for us in a small bakery called "Rönttösrouva".

Freshness and quality is the key factor in all our ingredients!
